

GOVERNMENT OF BERMUDA
Ministry of Tourism and Transport

Department of Civil Aviation

ADDITIONAL BENEFITS OF APPROVAL UNDER ARTICLE 85 OF THE AN(OT)O AND IS-BAO REGISTRATION .

It has come to the notice of the Bermuda Department of Civil Aviation (DCA) that an operator of a Bermuda registered Corporate Aircraft has negotiated a \$30,000 reduction in their annual aircraft insurance,

How have they managed to achieve this saving?

They have gained Bermuda Governor's Approval under Article 85 of the Air Navigation (Overseas Territories) Order 2007 by virtue of the operation becoming registered with IS-BAO. By demonstrating to their insurance provider that their operation is now at a higher safety level than before they achieved IS-BAO registration, the insurance company reduced their premium.

The Bermuda DCA has established processes and contacts that can assist your operation in complying with the AN(OT)O, IS-BAO and ICAO Annex 6 Part 2.

If you are serious about increasing the safety of your operation and the possibility of reaping some financial payback for your efforts, please contact Flight Operations for further details. Contact details are available on www.dca.gov.bm.
